

The Language Of The Genes

The crowd opens with Aunt Polly crossing the fence in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom runs out dramatically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects carefully on Tom's mischief and how she lets him get away with his work.

Tom crosses fence at supper time. During supper, Aunt Polly discovers that Tom's hands are covered with jam. She asks him how he got the jam on his hands, and he tells her that he was out of the house. She tells him that he must be whipped, but Tom says that he was out of the house. She tells him that he must be whipped, but Tom says that he was out of the house.

Tom goes out of the house to play the streets of St. Petersburg. He and the new arrival, Joe, chase the swallows all the way home.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and decides to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Tom passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of excuse. Tom almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his labor.

If the history of life is the history of DNA, then this survey of genetics is an essential book for anyone interested in the development and possible future of our species. Jones (Genetics/University College, London; editor, The Cambridge Encyclopedia of Human Evolution, not reviewed) expands a BBC lecture series on genetics into an accessible and wide-reaching survey of that science and of ...

THE LANGUAGE OF GENES by Steve Jones | Kirkus Reviews

Gene variants underlie individual language skills. Genetic predisposition might favour the evolution of structural features of languages. Humans have a unique natural ability to develop highly complex linguistic systems — an ability that lies in our genes but is also shaped by our different environments.
